DASS®

Disc Brush

Eight 430 mm disc brushes ensure that the detergent is evenly distributed across the surface and penetrates deep into the carpets. The brushes, which move from side to side, powerfully clean the dirt trapped within the fibers.

Lower Washing Brush

The 200 mm diameter under-washing brush cleans the underside of the carpet after processing, removing hair, lint, and dirt; ensuring the carpet is completely hygienic.

Purification System

Two rubber scrapers effectively remove dirt and lint from the carpet using disc and roller brushes. Water sprayed from above at 150 bar pressure quickly removes dirt, cleans detergent residue, and ensures the carpet is rinsed perfectly.

Our pressurized machine that supplies 150 bar water to the Gelberi system.

Internal Accessories

Adet

	Oval Brush	8
	Carpet Transport Cart	1
	300L Water Tank	1
	300L Detergent Tank	1
	Carpet Washing Pool	1
