

On-Site Carpet Cleaning Machine Set

DASS Rotoaqua

- ◆ Groundbreaking technology in professional carpet cleaning machines.
- ◆ Significantly improved suction power with a dual vacuum motor.
- ◆ Dries your carpets quickly in sync with the cleaning process and prevents water from being forced deep into the carpet.

The Rotoaqua Kit makes carpet cleaning more efficient. It helps you save time and effort. The brushing, washing, and vacuuming processes are performed simultaneously. This allows your carpets to be cleaned much more quickly and easily.

Technical Specifications

Technical Specifications

Key Usage Details

Washing and vacuuming in one go

It runs on household electricity

- 400-watt motor power
- Suitable for large areas with a 30-cm brush width
- It prevents water from seeping under the carpet while washing and completely removes dirt.
- You can wash as much as you want; the underside of the carpet stays dry, it prevents bad odors, leaves no stains, and dries quickly.

*The satisfaction of all our customers who prefer us in our 35-year journey, which we cannot fit into this list, is our strongest reference.
We thank them all.*
